

## Assumption University Accreditation History

First accredited: September 2021

Next review: TBD

Maximum class size: 50

Page 1 of 1

### September 2024

Accreditation-Provisional; Program has not yet enrolled students but plans and resource allocation, if fully implemented as planned, demonstrate the probability to meet the ARC-PA *Standards*. Next

Comprehensive Evaluation: TBD (Provisional Monitoring). Maximum class size: 50.

The commission noted three areas of noncompliance with the *Standards*.

Report due December 15, 2024 (*Standards*, 5<sup>th</sup> edition):

- **Standard B3.03d** (lacked evidence supervised clinical practice experiences enable all students to meet the program's learning outcomes for conditions requiring surgical management, including pre-operative, intra-operative, post-operative care)
- **Standard B3.06a** (lacked evidence supervised clinical practice experiences occur with physicians who are specialty board certified in their area of instruction)
- **Standard B4.01a** (lacked evidence program conducts frequent, objective and documented evaluations of student performance in meeting the program's learning outcomes and instructional objectives for both didactic and supervised clinical practice experience components that align with what is expected and taught)
